### State Bar Court of California 2016 Court Performance Standards Assessment

#### Introduction

The State Bar Court has used the Court Performance Standards Assessment (CPSA) to evaluate its overall performance since 2004. The goal is to comprehensively measure the court's performance on an ongoing basis at a modest cost in time and money. In 2005, the State Bar Court decided that the CPSA report should be made public, and has posted it on the State Bar website each year since then.

We examine court performance in five specific areas:

- 1. Access to Justice
- 2. Expedition and Timeliness
- 3. Equality, Fairness, and Integrity
- 4. Independence and Accountability
- 5. Public Trust and Confidence

These performance measures are formulated from those recommended for courts of record by the National Center for State Courts. Several measures are based on existing State Bar Court timelines, which derive from the Rules of Procedure of the State Bar and pendency standards similar to those of the American Bar Association. The key performance measures analyze time to trial, submission time for decisions and opinions, overall pendency of cases, and backlog reduction.

The 2016 CPSA report presents the statistical data of the State Bar Court's performance. In an effort to promote full transparency, the report provides several ways to view the data, including by graph, 10-year quarterly chart, and 10-year annual chart. Commentaries for each measure are also offered. For several years, the State Bar Court has implemented methods to improve overall case processing efficiency in its effort to increase public protection without sacrificing the due process rights of the parties. That effort continues.

Highlights of the 2016 State Bar Court accomplishments include:

### State Bar Court:

- Cleared 117% of its cases the third highest percentage in ten years (Measure 2, page 4)
- Operated within its authorized budge for the third consecutive year (Measure 7, page 40)

### Hearing Department:

- Maintained compliance with the CPSA goal of 10% or less for backlog of cases (Measure 4, page 18)
- Filed all decisions and stipulations in 100% compliance with CPSA timeline (Measure 5, page 27)

### Review Department:

- Closed 77 cases the highest number in ten years (Measure 3, page 11)
- Filed all opinions in 100% compliance with CPSA timeline (Measure 5, page 33)
- As of December 2016, had no cases in backlog (Measure 4, page 15)

#### **Effectuations:**

- Processed 99% of cases within CPSA timeline the highest annual percentage in ten years (Measure 3, page 11)
- Maintained 0% backlog of cases in all four quarters in 2016 (Measure 4, page 16)

#### Conclusion

The State Bar Court adopted the high CPSA standards of performance to increase public protection and to preserve confidence in the legal profession. Where the CPSA standard has not been achieved, the court has targeted that measure to ascertain various means for improvement. The State Bar Court is dedicated to meeting the CPSA standards whenever possible while continuing to provide the objectivity, effectiveness, and competence associated with our court.

I wish to acknowledge and thank the judges, managers, and all staff members of the State Bar Court for their dedication and hard work this past year and always.

Catherine D. Purcell Presiding Judge, State Bar Court June 2017

# Measure 1 Survey of Court Performance

### **Definition**

This measure reports the results of a survey administered to litigants to obtain their perceptions about the court in the following performance areas: Access to Justice; Equality, Fairness and Integrity; Expedition and Timeliness; Independence and Accountability; and Effectiveness and Quality.

### **Standard**

Based on the first survey results in 2004, the following standard was adopted:

Identify and improve performance in targeted areas; maintain performance in other areas; resurvey approximately every 24-36 months.

### **Methodology**

In 2008, the court contracted with consultant Dr. Brenda J. Wagenknecht-Ivey to re-administer the survey of court users. Using a consultant outside the court ensured that survey responses would be confidential. This survey evolved from surveys used by courts of record to assess their performance, with the questions adapted to reflect the procedures of the State Bar Court. Those surveyed included attorneys from the Offices of Chief Trial Counsel, Probation, and Fee Arbitration, respondents, and respondents' counsel. The survey results highlighted the following three areas for improvement: (1) procedural fairness; (2) perception of independence; and (3) timeliness.

The State Bar Court was scheduled to conduct a Court User Survey in 2016. The purpose of the survey is to assess court users' perceptions of the Court by asking questions about their experiences over the past 12-18 months in the following five key areas:

- 1. Access to Justice
- 2. Equality, Fairness, and Integrity
- 3. Expedition and Timeliness
- 4. Independence and Accountability
- 5. Effectiveness and Quality

The Court User Survey scheduled for 2016 was deferred as a cost-cutting measure.

### Measure 2 Caseload Clearance

### **Definition**

A comparison of the number of cases closed to the number of cases filed.

### **Standard**

100% clearance rate or a 1:1 ratio of cases closed to cases filed.

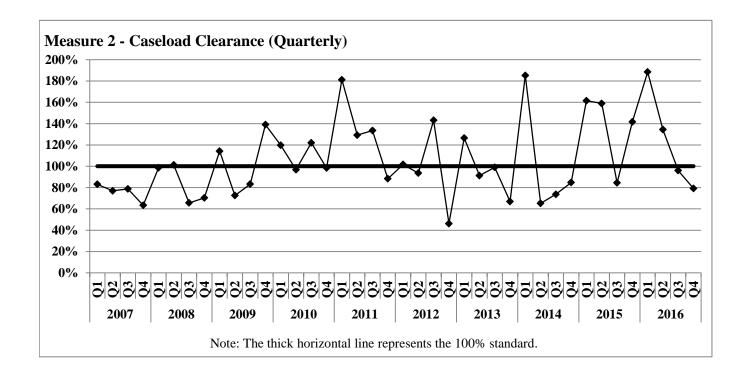

### Methodology

Each quarter, the number of cases closed (i.e., final disposition) is calculated and compared to the number of cases filed. If the court closed as many cases as were filed during the quarter, the percentage cleared would be 100%. If the court closed fewer cases than were filed, the percentage would be less than 100%; and if the court closed more cases than were filed, the percentage would be greater than 100%. Generally accepted court performance standards suggest that courts aspire to clear at least as many cases as are filed within the reporting period.

Beginning in 2011, two additional case types are tracked: pre-filing matters and voluntary resignations without charges pending. Pre-filing matters (e.g., motion to quash subpoena) are included in the Caseload Clearance chart, but voluntary resignations are not. However, those resignations are tracked separately but not reported here. In 2016, 423 voluntary resignations were processed.

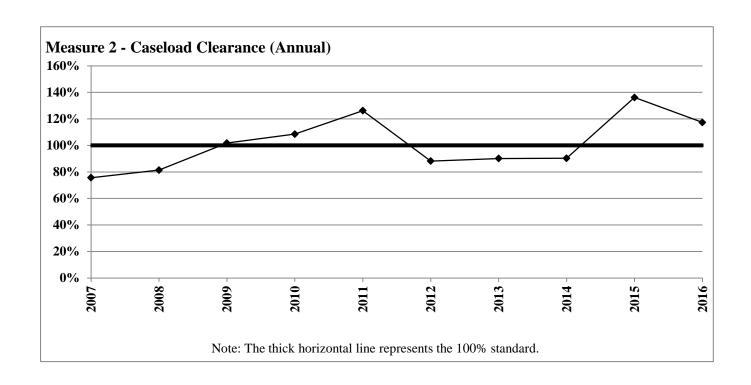

### **Commentary**

In 2016, the State Bar Court cleared 730 or 117% of its cases, meeting the CPSA standard.

**Measure 2 - Caseload Clearance (Quarterly)**

# Measure 3 On Time Case Processing

### **Definition**

The percentage of closed cases that were processed within established timelines.

### **Standard**

Hearing and Review:

90% of cases to be processed within the case type timelines;

100% of cases to be processed within 150% of the case type timelines.

Effectuations:

100% of cases to be processed within the timeline.

### **Methodology**

The cases examined are those cases closed (i.e., final disposition) during the quarter. The number of days the case was open in each department (Hearing, Review, and Effectuations) is calculated. An open case is one that is pending in a department, which is not abated and not in the State Bar Court's Alternative Discipline Program (ADP). The number of days open in each department is then compared to the existing timelines for that department and case type (see "Timeline Standards by Case Type"). Results are reported for each department.

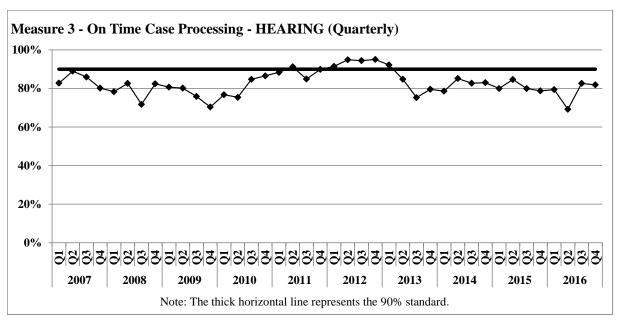

Beginning in 2012, the ADP cases in the Hearing Department are measured against timelines based on all phases of the program: referral, evaluation, and program status. Also, all reports have been adjusted to exclude the time a case is in default.

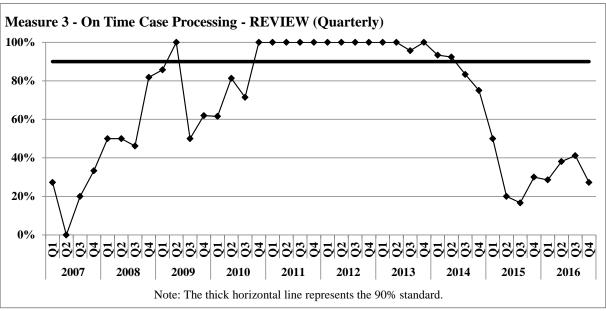

#### **Commentary**

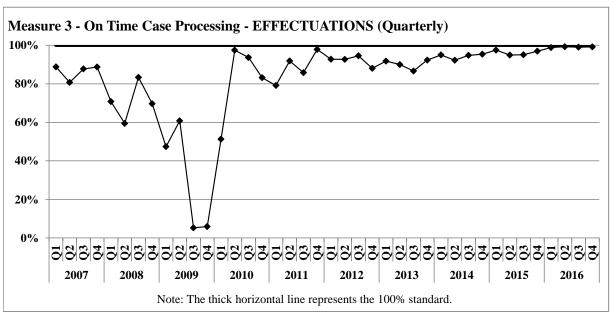

Hearing Department: In 2016, of the 699 cases measured for on-time case processing, 545 cases (78%) were completed within the timeline and 644 cases (92%) were completed within 150% of the timeline. Efforts to improve this result are ongoing.

Review Department: In 2016, of the 77 cases measured for on-time case processing, 26 cases (34%) were completed within the timeline and 57 cases (74%) were completed within 150% of the timeline. In 2013 and 2014, the court experienced a significant increase in the number of petitions for review that were filed. The court has implemented methods to improve overall case processing efficiency, resulting in the 77 closed cases, the highest number in ten years.

Effectuations Unit: In 2016, of the 518 cases measured for on-time case processing, 513 cases (99%) were completed within the established CPSA timeline. This was the highest percentage in 10 years. The court initiated new procedures and controls in 2016 to further improve this result.

State Bar Court Court Performance Standards

# Measure 4 Case Backlog

### **Definition**

The percentage of open cases that are older than the established timelines.

### **Standard**

Hearing and Review: backlog not to exceed 10%.

Effectuations: no backlog or 0%.

### Methodology

The cases examined are those cases open during the quarter in Hearing, Review, or Effectuations. An open case is one which is pending in a department, which is not abated and not in the State Bar Court's Alternative Discipline Program (ADP). The number of days a case is open in a department is calculated and compared to the existing timelines for the department and case type (see "Timeline Standards by Case Type"). Cases exceeding the timelines are reported as the backlog. Results are reported for each department. All backlogged cases exclude the time a case is in default.

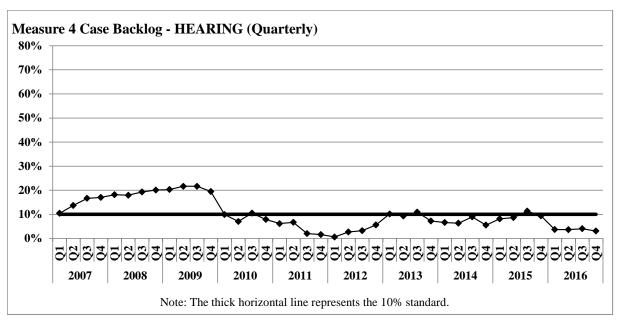

Beginning in 2012, the ADP cases in the Hearing Department are measured against timelines based on all phases of the program: referral, evaluation, and program status.

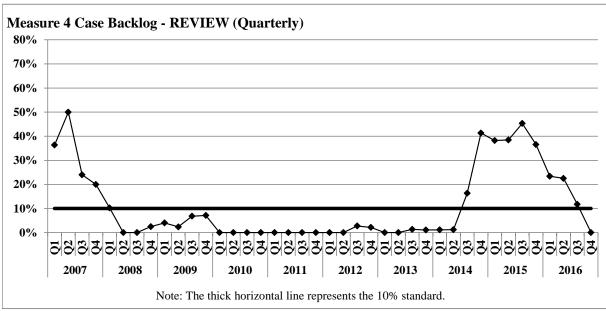

### Commentary

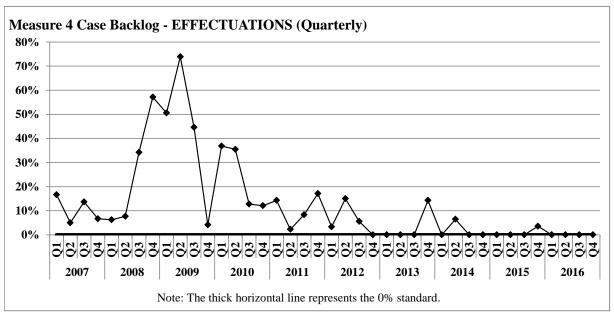

Hearing Department: At year end in December 2016, there were 11 cases (3%) in backlog. This is the seventh year in which the Hearing Department backlog has met the 10% or less CPSA standard. Efforts to identify and reduce the number of backlogged cases are ongoing.

Review Department: At year end in December 2016, there were no cases in backlog of the 23 pending cases, an improvement over the prior year when 19 cases (37% of the 52 pending cases) were in backlog. In 2013, new requests for review increased to 103, contributing significantly to the previous backlog. The Review Department has eliminated the backlog and continues its efforts to keep newer cases from becoming backlogged.

Effectuations Unit: At year end in December 2016, there were no cases in backlog of the nine open cases. The Effectuations Unit maintained 0% backlog for all four quarters of the year and continues to use case management tools to avoid any further backlog occurrences.

**Measure 4 Case Backlog - Hearing (Quarterly)**

# Measure 5 Commencement of Trials - Hearing Department

### **Definition**

The percentage of trials started within established timelines.

### **Standard**

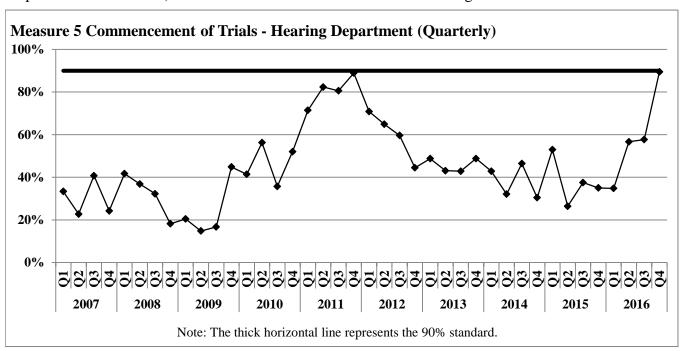

90% of cases are to commence trial within case type timelines; 100% of cases are to commence trial within 150% of case type timelines.

### Methodology

The first part of this measure examines the pendency of cases in the Hearing Department at the start of trial. For each case in which trial started during the quarter, the number of days from the date the case was filed to the date of trial is calculated and compared to the timeline for the case type (see "Timeline Standards by Case Type").

### Commentary

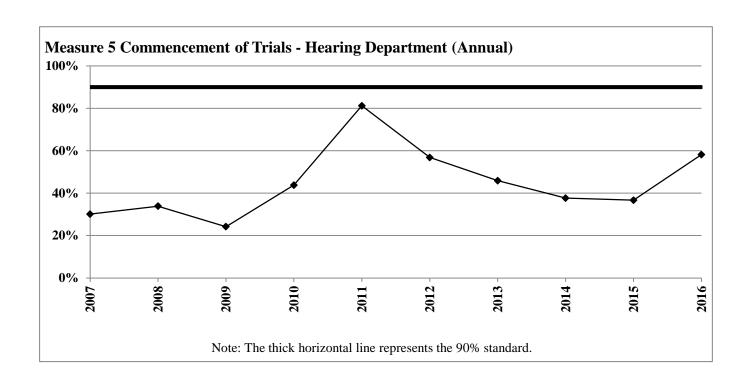

This standard provides that trials in most case types should commence within 125 days, which was shortened from 180 days in 2011. Thereafter, performance for this measure experienced a notable decline. As a result, an SBC committee was formed to identify the reasons for the delays in commencing trials in the Hearing Department. The committee discovered that delays were caused in three ways: (1) by circumstances outside the hearing judges' control, such as illness of the parties, judicial reassignment of cases, or matters that default for long periods of time, but later proceed to trial; (2) by the parties' requests or stipulations to continue the trial for various good cause reasons; and (3) less often, as a result of internal SBC scheduling. To address the internal delays, the SBC shortened its timeline for trial setting and trained staff regarding the importance of monitoring this standard. These efforts resulted in improvements. In 2016, the Hearing Department commenced trial within the timeline in 58% of cases (21% improvement from 2015), and 86% of cases met the 150% timeline (23% improvement from 2015). The CPS Committee will continue its oversight of this measure.

# Measure 5 Timeliness of Submissions - Hearing Department

### **Definition**

The percentage of cases in which submission time meets the established timelines.

### **Standard**

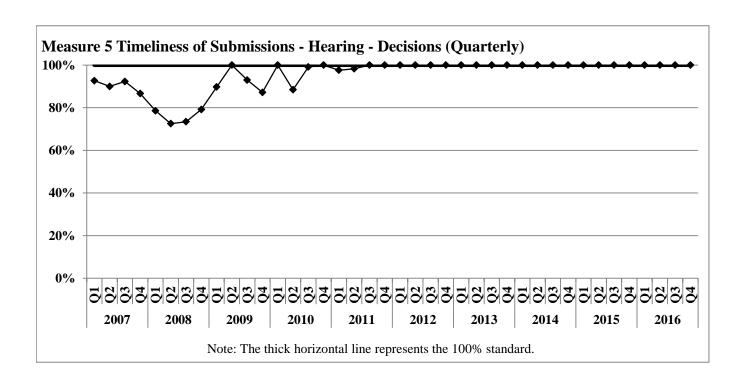

100% compliance with case type timelines for submission of decisions and stipulations.

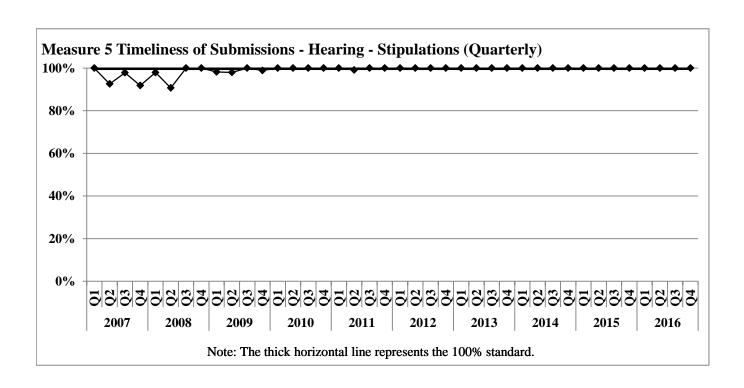

### Methodology

The second part of this measure examines the submission time of decisions and stipulations in the Hearing Department. For cases closed during the quarter, the number of days the case was under submission is calculated and compared to the timeline for the case type (see "Timeline Standards by Case Type").

### **Commentary**

The Hearing Department has achieved the CPSA 100% goal for the last four years for the submission of both decisions and stipulations.

### Measure 5 Commencement of Oral Arguments - Review Department

#### **Definition**

The percentage of oral arguments started within the established timelines.

#### **Standard**

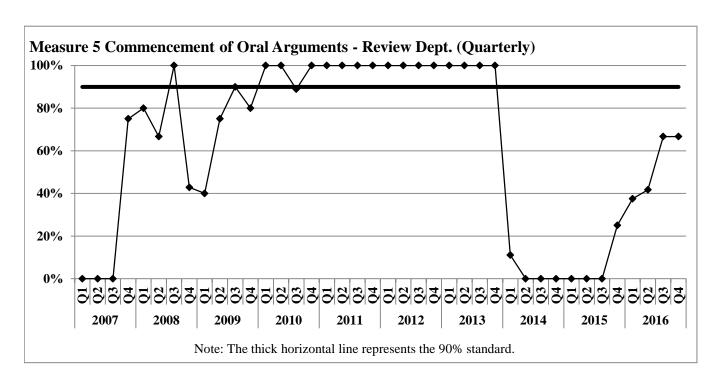

90% of cases are to commence oral argument within Review Department timelines; 100% of cases are to commence oral argument within 150% of Review Department timelines.

#### Methodology

The first part of this measure examines the pendency of cases in the Review Department at the time oral argument was held. For each case in which oral argument was held during the quarter, the number of days from the date the request for review was filed to the date of oral argument is calculated and compared to the timeline (see "Timeline Standards by Case Type").

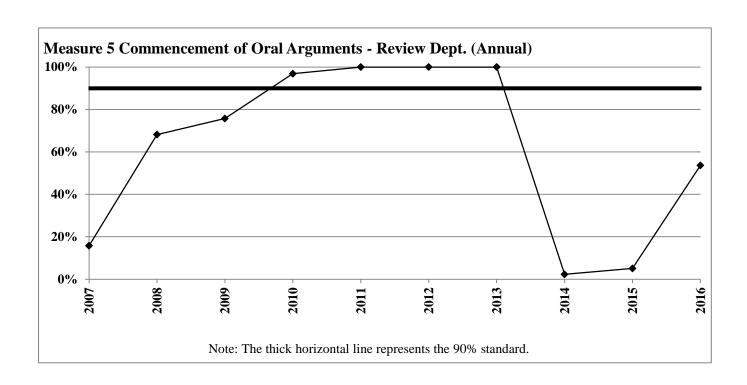

#### **Commentary**

This standard provides that oral argument should commence, after receipt of the transcript and briefs, within 245 days of the filing of the request for review. The Review Department met this standard in 2011, 2012, and 2013. A significant increase in filings in 2013 and 2014 resulted in a noticeable decline in performance for this measure. Beginning in late 2015 and throughout 2016, successful efforts to improve this measure were implemented. In 2016, oral arguments in 54% of the cases met the timeline (compared to 5% in 2015) and 85% of the cases met the 150% timeline (compared to 46% in 2015). The Review Department continues to improve its performance of this measure.

# Measure 5 Timeliness of Submissions - Review Department

#### **Definition**

The percentage of cases in which submission time meets the established timeline.

#### **Standard**

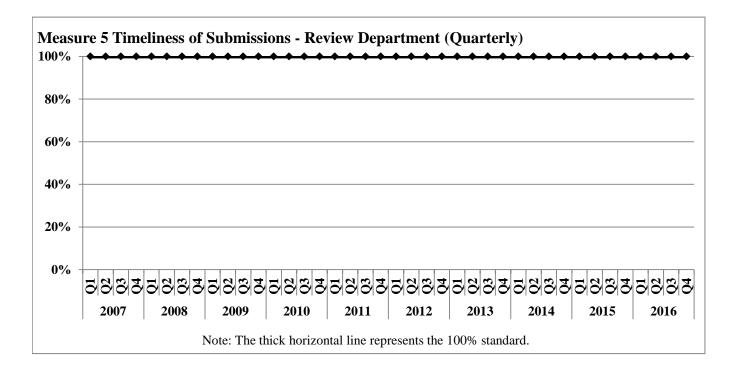

100% compliance with timeline for submission.

#### **Methodology**

The second part of this measure examines the submission time of opinions in the Review Department. For cases closed during the quarter, the number of days a case was under submission is calculated and compared to the timeline (see "Timeline Standards by Case Type").

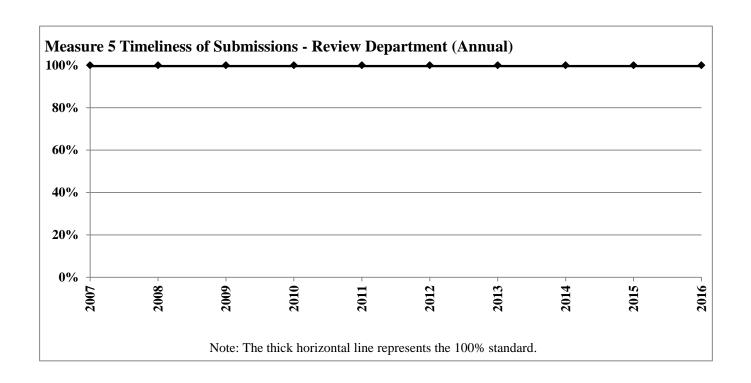

#### **Commentary**

The Review Department has achieved the CPSA 100% goal for the last ten years for filing all opinions.

# Measure 6 Case File Reliability and Accuracy

#### **Definition**

The percentage of case files meeting established criteria of accuracy and completeness.

#### **Standard**

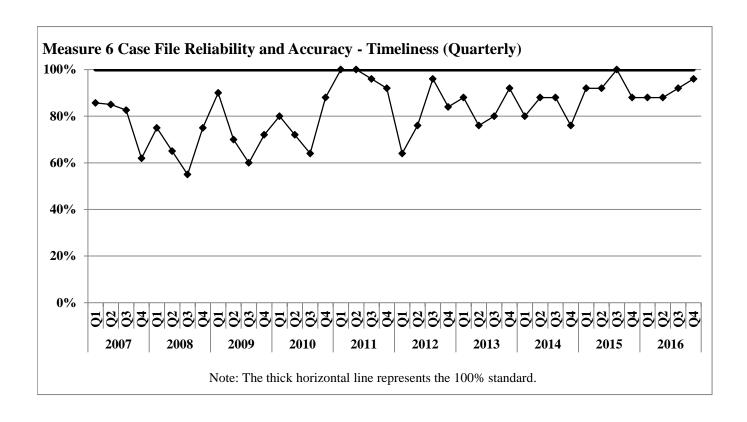

100% compliance with established audit criteria.

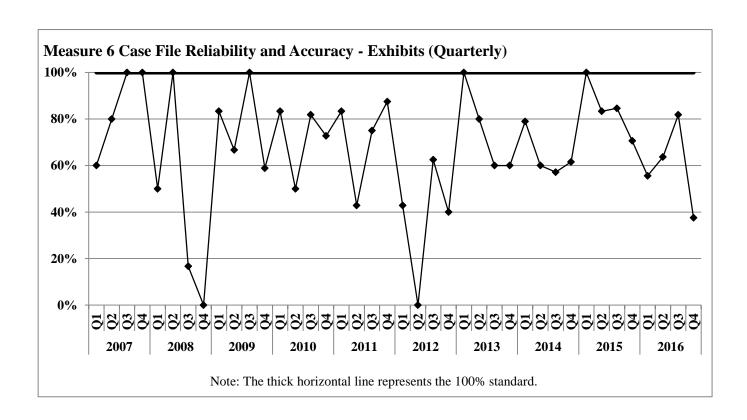

#### Methodology

For each quarter, 25 case files are randomly selected for audit. The initial assessment included 24 different criteria covering content (each section of the file), timeliness (notice of assignment, orders, decisions, transcript), and accuracy (data entry, exhibits) of court files. Since 2006, two criteria have been the sole focus: timely issuance of the Notice of Assignment (referred to as Timeliness in the chart/graph) and accuracy of exhibits (marking, indexing, and assembling). Not all of the 25 case files selected for audit have exhibits, so the Cases Audited number with exhibits may be less than 25 in a quarter or less than 100 in a year.

#### Commentary

In 2016, 91% of the cases audited were in compliance with the standard for timely issuance of the Notice of Assignment. Because a single error amid hundreds of exhibits may place a case out of compliance with the enumerated audit criteria, only 60% of the cases were in compliance with the standard for accuracy of exhibits. Procedural changes were implemented to address exhibit handling issues and to improve the accuracy of exhibits.

# Measure 7 Accountability for Public Resources

#### **Definition**

The court's accounting of its fiscal resources.

#### **Standard**

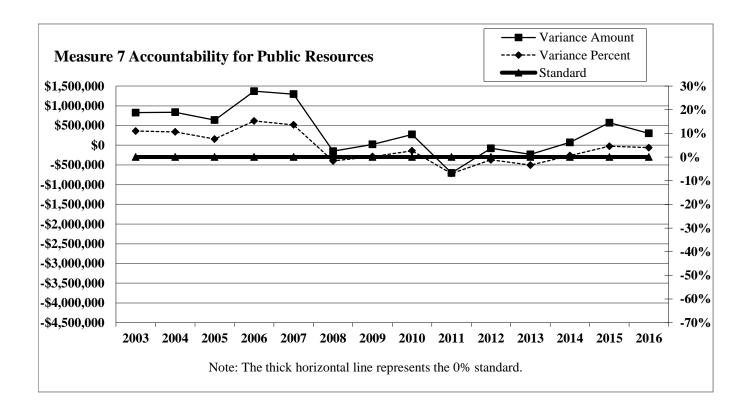

Operate within authorized budget.

#### **Methodology**

The State Bar Board of Trustees approves an annual budget, funded by attorney membership dues, for allocation to the State Bar Court. For each year reported, year-to-date actual expenditures are compared to year-to-date budgets. The variance amounts are then compared to the overall budget as a percentage. Budgets are monitored monthly and research is routinely conducted to determine the causes of any variances.

#### **Commentary**

For the third year in a row, the State Bar Court has operated within budget, meeting the standard for accountability for public resources.

## **Measure 7 Accountability for Public Resources**

|      |               | Year End     |             |               |
|------|---------------|--------------|-------------|---------------|
|      |               | Operating    | Variance    | Percentage of |
|      | Annual Budget | Expense      | Amount      | Variance      |
| 2003 | \$7,515,090   | \$6,687,866  | \$827,224   | 11.01%        |
| 2004 | \$7,871,961   | \$7,035,235  | \$836,726   | 10.63%        |
| 2005 | \$8,373,309   | \$7,733,891  | \$639,418   | 7.64%         |
| 2006 | \$8,988,764   | \$7,617,630  | \$1,371,134 | 15.25%        |

## Measure 8 Public Education - Outreach Events and Written Practice Guides

#### **Definition**

Assess community outreach efforts and measure the extent the State Bar Court disseminates information about its purpose, operations, and programs to State Bar personnel, the public, attorneys, and professional or regulatory agencies.

#### **Standard**

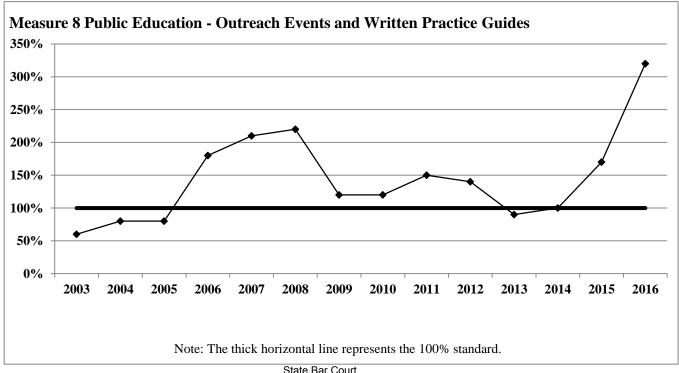

- (1) Conduct at least one Bench/Bar conference per year;
- (2) Present at least one program at Section Education Institute and/or Annual Meeting;
- (3) Participate (judicial officers and/or court staff) in a total of at least ten outreach activities per year;
- (4) Increase written and electronic dissemination of informative materials.

#### Methodology

For each year, the number of outreach events is calculated. Starting in 2011, the definition of a qualifying outreach event has been expanded to include the creation and dissemination of written materials without an accompanying conference or program.

#### **Commentary**

In 2016, State Bar Court met and exceeded the standards for presentation of programs and participation in outreach activities. In December 2016, a Bench/Bar Committee was appointed for conferences to be held in 2017. Beginning in 2015, the State Bar Court has expanded its public education about the role of the court, the nature and function of attorney discipline matters, and professional ethical guidelines for attorneys. In addition, court members have participated as judges in mock trial events and have mentored students from high schools, colleges, and law schools. Attendees at the various educational programs have included members of the State Bar Board of Trustees and legislative offices, law school deans, attorneys in various practice areas, law school students and faculty, community college students, and high school law school academy students.

### Measure 9 Court Workforce Strength

#### **Definition**

This measure reports the results of a survey administered to all court employees to obtain their opinions about the following performance areas: Resources; Vision/Goals/Priorities; Management/Leadership; Job Satisfaction/Nature of Work; Communication; Teamwork; and Structure/Organization.

#### Standard

Improve performance in targeted areas; maintain performance in other areas; re-survey staff approximately every 24-36 months.

#### **Methodology**

In May 2003, all court employees were asked by consultant Dr. Brenda Wagenknecht-Ivy to provide their views of court performance. In May 2004, the same survey was re-administered by Dr. Wagenknecht-Ivy. The 2004 survey results were compared to those of 2003, which illustrated four priority areas needing improvement: (1) teamwork; (2) management structure; (3) communication; and (4) employee recognition.

In December 2015, Dr. Wagenknecht-Ivy conducted an online, work-climate survey. There was a 97% response rate with 33 out of 34 State Bar Court staff members completing the survey. Survey questions focused on six performance categories: (1) Resources; (2) Vision/Goals/Priorities; (3) Management and Leadership; (4) Job Satisfaction/Nature of Work; (5) Communication; and (6) Teamwork. A staff meeting was held to review the survey results and to commence a dialogue regarding goals, focus areas, and priority initiatives as part of the Court's Action Plan for 2016.

The Plan contains identified goals, specific areas of focus, and priority initiatives for 2016-2017. They will ensure that the Court:

- 1. Continues to achieve or exceed the nine court performance measures;
- 2. Makes necessary technological improvements;
- 3. Implements recommendations from recent State Bar studies; and
- 4. Completes court improvement projects.

#### **Commentary**

The next survey is not due until December 2018. The Court has improved performance in areas in the Court's current 2017 Action Plan. Specifically, in the area of communications, the Court has increased its information sharing through informational emails, staff meetings, regular updates and roundtable discussions. In the area of employee recognition, the Court conducted a survey of court personnel to gather input and suggestions to improve employee engagement. To address teamwork, the Court instituted several training opportunities for staff and court counsel in the areas of professional development, first aid, and CPR. Additional training in the areas of ADA and security is being planned.

## Response to State Bar of California Workforce Planning Report to the Executive Director (May 10, 2016)

Pursuant to Business and Professions Code section 6140.16, the National Center for State Courts in its Workforce Planning Report recommended that the State Bar Court expand its annual report to include four additional statistics listed below.

- 1. The percentage of disciplinary cases in the past year that went to trial within 125 days and the percentage of cases closed in the Hearing Department within 265 days.
  - a. Interpretation: From Measure 5, report only case types C, H, N, O that have Day 125 trial goal and of those from Measure 3, report those that have Day 265 disposition goal.
  - b. Results: Of the 48 cases where trial commenced by Day 125, there were 43 cases that closed within 265 days for a 90% rate.
- 2. The percentage of original disciplinary cases that went to oral argument within 245 days and the percentage of cases closed in the Review Department within 355 days.
  - a. Interpretation: From Measure 5, report only case type O that have Day 245 oral argument goal and from Measure 3, report those that have Day 355 disposition goal.
  - b. Results: Of the nine cases where oral argument commenced by Day 245, nine cases closed within 355 days for a 100% rate.
  - c. Results: Of the 17 cases where oral argument commenced by Day 275, 15 cases that closed within 355 days for a 88% rate.
- 3. The number of pending cases that exceed 200 percent of the goal and 300 percent of the goal.
  - a. Interpretation: From Measure 4 (Backlog) report for Hearing and Review.
  - b. Results: Nothing to report as the CPSA standard has been met because less than 10% of cases are in backlog.
- 4. The name and number of cases waiting decision that exceed the goal for timeliness.
  - a. Interpretation: The word "decision" is interpreted to mean only Hearing Department cases and the word "timeliness" to mean timeliness pursuant to Measure 5 (Submission Time).
  - b. Results: Nothing to report because the Hearing Department had 100% compliance.
